

# **EARLY START**

## **AUTISM PROGRAM**

Is your child ready for learning in a classroom setting?  
Does your child have difficulty learning in groups?

**ENROLL NOW! Call (800) 773-1682**

## WHAT DOES THE PROGRAM OFFER?

This program helps prepare young children with autism and developmental delays to participate and learn in individual and group settings. This program focuses on direct one-on-one services that build the necessary foundation for independent learning and provides group learning opportunities for generalization of skills and preparation for the school environment. A multi-disciplinary team will work directly with your child and meet regularly to assess your child's individualized needs and progress on targeted objectives, utilizing a trans-disciplinary approach to maximize your child's progress.

## WHAT SERVICES WILL MY CHILD RECEIVE?

The program consists of the following weekly therapies, all geared toward preparing your child for classroom and group learning:

- ▶ **ABA Therapy** - 9 hours/week
- ▶ **Social Skills Treatment** - 2 hours/week
- ▶ **Occupational Therapy** - 2 hours/week
- ▶ **Speech and Language Therapy** - 2 hours/week

## PARENT TRAINING WORKSHOPS

Group parent training workshops will be offered quarterly. Monthly individualized parent meetings will be conducted focused on progress and strategies to develop skills outside of therapy in the child's natural environment.
