

# Proctor Emergency Services

## Exceptional care in a safe, convenient environment.

Our experienced emergency teams include outstanding physicians and registered nurses highly trained in advanced life support and trauma care. They provide a full spectrum of care for critically ill and injured patients with the latest technology. Located within the Proctor Emergency Department is the Emergency Chest Pain Center – the first of its kind in the area. The Proctor Emergency Department is a member of the Illinois Stroke Network and is approved for pediatric treatment.

In an emergency, time matters and at Proctor you will be seen and treated promptly. First rate care, less stress and a very convenient location – it makes sense to come to Proctor.

# Request Proctor for comprehensive orthopedic services

## All the services you need to get back to enjoying life faster

At Proctor Hospital we provide the complete range of orthopedic services you need to get back to doing the things you love. In addition to our team of top rated surgeons we have an experienced clinical staff, the latest technology, a dedicated orthopedic nursing unit, a comprehensive physical rehabilitation program and the only hospital based skilled nursing center in the area. All dedicated to getting you back to enjoying life faster.

When you request Proctor you get the benefits  
of our experienced staff, advanced technology, top-rated surgeons  
and a private room with the highest level of care.

*Different. Better.*
